Design Explanation

1. Color Enhancement

The building/tower icon color was changed from its original style to black to create a strong and professional look.

The "Borcelle Build" text color was changed to red to make the brand name more prominent and eye-catching.

The tagline "Great Future Building" was changed to yellow to add contrast and improve visibility.

2. Background Improvement

A circular shape was added behind the logo.

A gradient color effect was applied to the circle to create a modern and attractive background.

3. Typography Update

The font style was changed to a cleaner and more modern typeface.

Text alignment and spacing were improved to enhance readability and overall design balance.
